SAVOX[®] 400 Com-control

Push-To-Talk unit

The SAVOX[®] 400 com-control is a durable radio communication accessory that secures transmission even in extreme and hazardous conditions. It has an extra large push-to-talk button and an integrated rugged quick release connector that adapts any SAVOX[®] headset to your two-way radio. The unique design prevents unintentional transmission and enables mounting directly on the radio - eliminating all redundant running of cables. Alternatively the unit can be fastened by means of a rugged detachable belt or clothing clip.

The SAVOX[®] 400 com-control contains an integrated amplifier for bone conduction and ear microphones and interface electronics according to the type of radio used. The SAVOX 400 Com-control push-to-talk button is available in different colors, with an option for extra sensitive operation (mushroom)* or for remote PTT-function.

The SAVOX[®] 400 Com-Control is a compact, durable, and intrinsically safe radio accessory. A Push-To-Talk solution that provides personal safety and work efficiency - whatever the conditions.
